Scapia Raises \$63 Million Led by General Catalyst; Existing Investors Peak XV Partners and Z47 Participate

Ahmedabad, Scapia, one of India's leading travel-fintech companies, has raised \$63 million in a round led by General Catalyst, with continued participation from existing investors Peak XV Partners and Z47. With this round, Scapia will scale to millions of customers across India and accelerate its AI-first approach to building products and teams.

Anil Goteti, Founder and CEO, Scapia, said: "We are excited to have General Catalyst join us as a partner, and the continued investment from Peak XV and Z47 is a strong validation of what we have built and where we are headed. Today, Scapia is a comprehensive travel ecosystem powered by a financial product at its core, designed for a generation of Indians that treats travel as a way of life. This round will help us strengthen our product

suite further, bring more value to our customers through more offerings, scale the brand and bring in the best talent as we double down on building an AI-first culture and product approach. Our focus remains unchanged: building products that help our users travel and lead richer lives."

Neeraj Arora, CEO India & MENA at General Catalyst, said "India's next wave of great consumer companies will be built around behaviors that are genuinely new - not just digital versions of what came before. Scapia understood early that a generation of Indians for whom travel is a baseline expectation, not an aspiration, needed a financial product designed around that identity. The 7x customer growth last year and the depth of what they've built across the travel stack give us real confi-

dence in where this goes. We're glad to be part of it."

Sakshi Chopra, Peak XV Partners, said: "As travel becomes an important part of how young Indians live and spend, consumers are looking for financial products built around that behaviour. Scapia has created a seamless travel-fintech experience spanning payments, rewards, zero forex markup and travel benefits in a way that deeply resonates with users."

Vikram Vaidyanathan, Managing Director, Z47, said: "We have backed Scapia since their very first round, and every round since has only deepened our conviction. From the dual-network card to Scapia Pay to Airport Privileges, few teams in Indian fintech have shipped this much, this fast, while staying disciplined on compliance."

Consumer sentiment rises at sharpest pace in 1 year in May: BOK

Seoul, May 22 (IANS) Consumer sentiment rose at the fastest pace in about a year in May, driven by robust semiconductor exports and the stock market rally, the central bank said on Friday.

The composite consumer sentiment index (CSI) stood at 106.1 this month, up 6.9 points from April and surpassing the 100-point mark for the first time in two months, according to a survey by the Bank of Korea (BOK), reports Yonhap news agency.

The reading had fallen for two straight months in March and April.

The latest figure also marked the sharpest on-month increase since June last year, when the index rose by the same margin of 6.9 percent.

A reading above 100 indicates that optimists outnumber pessimists,

while a figure below 100 suggests the opposite.

The subindex for people's assessment of current economic conditions came in at 83 in May, up 15 points from a month earlier. The increase is also the largest on-month gain since October 2020.

The index for people's outlook for future economic conditions rose by 14 points to 93 over the same period, backed by South Korea's first-quarter gross domestic product (GDP) growth of 1.7 percent, the sharpest in more than five years.

"Optimism was supported by strong semiconductor shipments, better-than-expected first-quarter GDP growth and upward revisions to economic projections by major institutions, while the stock market rally also boosted sentiment," a BOK official said.
