

UGRO Capital and Dun & Bradstreet Unveil 4th MSME Sampark Report

Mumbai, UGRO Capital Ltd., a leading Data Tech NBFCo focused on MSME lending, has released the 4th edition of the MSME Sampark Report, prepared in collaboration with Dun & Bradstreet. The report features findings drawn from an analysis of over 73,000 MSMEs across eight key sectors, alongside an exclusive nationwide survey of more than 5,000 MSMEs. It highlights how global trade challenges, including rising US tariffs and slowing exports, are affecting MSME revenues in sectors such as textiles, automotive, chemicals, food processing, and electrical equipment. However, India's MSMEs continue to demonstrate remarkable resilience, expanding their credit footprint and sustaining growth momentum in a shifting global trade landscape. Mr. Shachindranath, Founder & Managing Director - UGRO Capital, they continue to face challenges and sectoral headwinds, India's MSME ecosystem remains resilient in order to move forward. The UGRO Exclusive Survey on Small Businesses offers deep insights into how credit access, formalisation, and digitalisation are shaping this transformation. Encouragingly, 83% of MSMEs surveyed reported no difficulty in accessing credit, with NBFCS emerging as their preferred financing partners, further validating our collective effort to formalize and simplify small business lending. Dr Arun Singh, Global Chief Economist at Dun & Bradstreet, said, "Dun & Bradstreet's ProCredit Business Confidence Index (GBOL) reflects a moderation in overall business optimism for India's small and medium businesses, as they continue to face a challenging trade environment. Despite this, anticipation for future domestic orders rose among Indian MSMEs, signalling strengthened optimism in the domestic economic environment, supported by robust industrial output, and a supportive price environment. Credit disbursement to micro and small enterprises increased in July 2025, underscoring the effectiveness of the government's credit guarantee scheme, Sustained momentum will depend on the extent to which India can include its MSME sector from global trade disruptions, including via targeted government interventions, such as strategic upgrades to the Production-Linked Incentive (PLI) scheme while continuing to foster domestic growth."

Cycle Pure Agarbathi celebrates National Driver's Day with a Fragrance of Legacy for India's everyday heroes

New Delhi, Cycle Pure Agarbathi, one of India's largest Pure Agarbathi manufacturers, honoured drivers across India with the distribution of VIBE Power Bag Air Freshener. This initiative was executed in collaboration with OLA Consumer, VRL, Karnataka State Road Transport Corporation (KSRTC), Indian Federation of App-based Transport Workers (IFAT), Maharashtra State Road Transport Corporation (MSRTC), and DTC (Delhi Transport Corporation) for National Driver's Day. The activity was a heartfelt gesture of appreciation for drivers, who work tirelessly to serve the country, helping to connect people to their destinations, under demanding conditions and long work hours. On the occasion of Driver's Day, Cycle Pure Agarbathi distributed around 10 Lakh VIBE Power Bag Air Freshener sachets across ten cities in Mumbai, Bangalore, Chennai, Hyderabad, Delhi, Kolkata, Pune, Ahmedabad, Lucknow, and Jaipur. As part of this collaboration, Cycle Pure Agarbathi also partnered with KSRTC to distribute VIBE Power Bag Air Fresheners across its Air Services in Bangalore, Mysore, and Mangaluru divisions, ensuring that both drivers and passengers could enjoy a refreshing and soothing travel experience. The VIBE Power Bag Air Freshener is curated with Pinksynergy Pink Blossom and Apple Cinnamon fragrances that will make the vehicle smell fresh, connect the driver and passengers' minds, chosen specifically to pay gratitude to India's drivers. This gesture by Cycle Pure Agarbathi shows its duty, connecting people, cities, and communities across the country. Speaking about the initiative, Arjun Ranga, Managing Director, Cycle Pure Agarbathi, said, "Drivers are the invisible force that keeps India moving every single day. At Cycle Pure Agarbathi, fragrance has always been about creating moments of calm and emotional well-being. We want to give a small but meaningful gesture of gratitude, helping drivers experience a sense of comfort, freshness, and relaxation during their long hours on the road." Prashant Bhagesh Swardekar, Founder & President, IFAT, said, "We are thrilled to announce this collaboration for our drivers. App-based transport workers operate under constant pressure, balancing safety, time, and service expectations every day. This gesture by Cycle Pure Agarbathi helps the drivers feel special and create a positive driving experience."

Business Brief II

Ujivan Small Finance Bank Launches EZY to Offer Secure Digital Banking for Retail Customers

Surat, Ujivan Small Finance Bank, today announced the launch of Ujivan EZY, its upgraded Mobile Banking and Internet Banking platform, marking a significant step in strengthening the Bank's digital-first strategy. Designed for its retail customer base, Ujivan EZY offers a unified, secure and intuitive banking experience across mobile and web channels, and is available in nine languages - English, Hindi, Kannada, Gujarati, Marathi, Bangali, Odia, Punjabi and Tamil. The platform brings together features such as account opening including more than 90 new capabilities, aimed at simplifying everyday banking while enabling deeper engagement across savings, payments, lending and investments, built on a next-generation microservices architecture. EZY enhances speed, scalability and system resilience, allowing the Bank to introduce new features faster and respond more effectively to evolving customer needs. Commenting on the launch, Mr. Deepak Agarwal, Head - Strategy and Transformation, Ujivan Small Finance Bank, said, "The launch of EZY marks our shift from standalone digital channels to a unified digital ecosystem. The new version offers faster innovation, deeper customer engagement and sustainable business growth, while continuing to stay aligned with our focus on trust, simplicity, security and financial inclusion."

Sensex, Nifty open lower

Mumbai, Jan 27 (IANS) The Indian equity markets opened the week lower on Tuesday and persistent FPI selling and mixed December quarter results. As of 9:25 am, Sensex dipped 430 points, or 0.54 per cent, to reach 81,101, and Nifty declined 110 points, or 0.44 per cent to 24,938. India and the European Union are set to announce the conclusion of negotiations on a Free Trade Agreement (FTA) at the India-EU Summit on Tuesday, that could boost the market sentiment later, especially in pharma, textiles, and chemicals sectors, analysts said. All sectoral indices were trading in the red except metal and PSU bank, Nifty auto, realty and media were the largest losers, down 1.90 per cent, 2.15 per cent and 1.28 per cent, respectively.

HortiConnect Ind. Expo 2026 returns to Bengaluru with Messe Muenchen Ind. on board

Mumbai, The 2026 edition of HortiConnect India Expo, scheduled from October 1 to 3 at the Bangalore International Exhibition Centre (BIEC), will see an expanded focus as it begins to engage more directly with India's wider agriculture sector. The trade fair will be co-hosted by Messe Muenchen and in partnership with Bengaluru-based HortiConnect Global Pvt. Ltd. Originally positioned as an international-standard trade fair centred on horticulture, the organisers said the broader scope reflects increasing convergence across crop segments, technologies first adopted in horticulture, such as protected cultivation systems, precision irrigation, climate-resilient inputs, and post-harvest infrastructure, are now being deployed across field crops and many farming systems. Horticulture will continue to anchor the exhibition, with coverage across various technologies, seed and planting material, irrigation solutions, bio-inputs, and post-harvest processing. The additional agriculture lens is intended to draw participation from players whose products and services serve multiple crop categories, particularly in water management, mechanisation for high-value crops, and supply chain integration. India's horticulture sector has gained policy prominence in recent years, driven by rising domestic demand, export growth, and the need to improve farm incomes. At the same time, pressure on land and water resources has pushed farmers towards intensive production models, many of which are being adopted in horticulture. The organisers are now influencing broader agricultural practices. "This platform was created to respond to how the sector is evolving," said S.K. Gutguta, Chairman, HortiConnect India Expo 2026, Bengaluru. "It is a platform that has pushed farmers towards intensive production models, many of which are being adopted in horticulture. The organisers are now influencing broader agricultural practices. This platform was created to respond to how the sector is evolving," said S.K. Gutguta, Chairman, HortiConnect India Expo 2026, Bengaluru. "It is a platform that has pushed farmers towards intensive production models, many of which are being adopted in horticulture.
